

BERTOLINI PUMP (C1)

SKU: 218 TTK2130

Max Flow 21 L/min

Max Pressure 4,350 Psi

Max Temperature 74°C

BERTOLINI PUMP TTK 2130

Features

- Intelligent packing seal system
- High-pressure seal self-lubricating with variable expansion dependent on pressure
- Anti extrusion ring made of PTFE & graphite protects pistons, precision engineered fit
- Low-pressure Seal reduces friction on pistons
- Special Easylube gear oil is used for a break in periods of pump
- Stainless steel martensitic piston rod, hardened and polished – extremely wear-resistant
- Valve caps are designed to eliminate water under pressure in threads – torque reduced by 40%, therefore easy to remove without risk of damage
- Super Cool Fin System – die cast allows crankcase, ribbed for efficient cooling, with high thermal conductivity
- The hardened surface of piston guides ensures smooth operation

Specifications

- **Max Flow:** 21 L/min
 - **Max Pressure:** 4,350 Psi
 - **Max Temperature:** 74°C
 - **Speed:** 1450 Rpm
 - **Engine:** GX360 23 HP
 - **Shaft** ø: 24mm
 - **Inlet:** 3/4 BSP
 - **Outlet:** 3/8 BSP
-
