SKU: 165 SWI-09-012S-VI

Everflo 2.2 GPM Bleach Pump 12 Gallon / 55L Max pressure 70 Psi

Soft Wash Unit (A1)

Sprayer Features: Fight back against stubborn growths with the 12 Gallon Soft Wash Bleach Sprayer. Designed to handle bleach applications, it is the perfect sprayer to make black mold, algae, lichen and mildew a thing of the past. Featuring a 2.2 GPM 12V On-Demand Everflo Soft Wash Bleach Pump, a rechargeable lead acid battery that allows for spraying up to 72 gallons on a single charge, and an all-steel frame to withstand the elements and soft wash chemicals. Includes a deluxe spray gun with 3 quick attach nozzles (15°, 40°, soap) and 30 feet of chemical resistant, braided nylon hose that allows you to spray any rooftop or hard to reach surface with ease. Additional features include a translucent tank to view fluid levels, heavy-duty tires for quick transportation and an inline strainer to prevent debris and clumps from entering the pump. Quick and easy assembly gets you moving about with your spraying in minutes.

Pump Features: Featuring the exclusive, patent-pending Motor Shield technology that shuts the pump off if a leak is detected, protecting the motor and saving you money. Save battery power with the automatic power switch that turns pump off when no flow is needed. Self-prime up to 10 feet while having the ability to run dry without sustaining damage. Additional features include corrosion-resistant Viton valves and Santoprene™ diaphragm, polypropylene pump manifold with Quick Attach Ports. CE approved & has standard mounting pattern for quick installation. When needed, replacement heads are available to extend the life of your pump at a fraction of the cost of a new pump. Backed by a 2-year consumer warranty and 90-day commercial warranty.

Ideal Applications: The soft wash bleach sprayer is perfect for soft wash applications that require cleaning black mold, algae, lichen, and mildew from outdoor surfaces such as fences, rooftops, siding and sidewalks. This sprayer can also be used for disinfecting indoor surfaces such as tables, counters, sinks
