

NEW Updated compact design and improved heating performance!

Fan forced Electric Space Heaters emit a gentle warm air flow and are designed for heating or drying purposes in a well-insulated, draught-free environment like shops, offices, or closed workshops. Low Maintenance is required to produce ongoing uninterrupted heat. Perfect to use to heat or dry well insulated & draught-free spaces.

FEATURES

- 2 Stage Heat Settings
- Overheat and tip over protection
- Stainless element and full metal body
- Waterproof rating IPX4
- Light Weight and Portable
- Adjustable thermostat control

SPECIFICATIONS

Voltage:	220-240V-50Hz
Plug Type:	10 A Single Phase
Heat Output:	30 1200 2400 W
Air Output:	229 m ³ /h
Heating Area:	30 m ²
Noise Level:	50 dBA
Net Weight:	4.9 KG
Warranty:	12 months
Product Dimensions:	32.5 x 25 x 37.5 CM
