Save time. Save water.
Save money.

REPAIR KITS HAVE YOU BACK UP AND RUNNING IN 10 MINUTES

The ¾" Reaper size opens opportunities for smaller municipalities and contractors to gain access to the Reaper line of products with compatible size ranges for their smaller truck/trailer and jetter units.

Rubber Boot

Provides a smooth rotational surface

Tungsten Carbide Nozzle Tip and Seat
Will outlast inferior ceramic nozzles

Inlet Screen
Protects nozzle from contaminants

**STAINLESS STEEL
HOUSING AND
TUNGSTEN CARBIDE
WEAR SURFACES FOR
EXTENDED LIFE**

**6X LESS
WATER**

Reaper nozzles are engineered for greater impingement – that means better performance while using less water and saving money.
