

The PIN HK070RD Radiant Diesel Heater is a powerful and efficient heating solution designed to provide instant, quiet, and effective warmth to your space. With a heating output of 20.5 kW (70,000 BTU), this heater is ideal for heating small to medium-sized areas up to 165 square meters.

FEATURES

- Radiant and Fan-Forced Heating System: Combines radiant heat, which warms objects directly like the sun, with fan-forced heat for quick and even distribution.
- Multi-Fuel Capability: Compatible with multiple fuels including K-1 kerosene, #1 and #2 diesel fuel, providing flexibility and convenience.
- QuietDrive Technology: Produces half the noise of comparable heaters, making it perfect for indoor and outdoor use without disturbing the peace.
- Lightweight and Portable: Features an ergonomic design with an easy-lift handle, making it easy to move and position wherever needed.
- Advanced Safety Features: Equipped with a safety overheat shut-off system and an error indicator light to ensure safe operation.
- High Fuel Efficiency: Consumes 2 litres of fuel per hour, with a fuel tank capacity of 13 litres, providing up to 6.5 hours of continuous operation.

PIN HK070RD

SPECIFICATIONS

Voltage:	220-240V-50Hz
Power Draw:	105 W
Heat Output:	20.5 kW (70000 BTU)
Tank Capacity:	13 L
Fuel Consumption:	2 L/hr (1.72 KG/hr)
Run Time:	6.5 Hr Cont.
Heating Area:	165 m ²
Noise Level:	65 dBA
Net Weight:	16.5 KG
Warranty:	1 Year
Product Dimensions:	57.6 x 33 x 57.5 CM

Wheel Kit to suit - PIN HK070RD-WK
