

# Electric Twin Boiler Hot Water

**State of the art hot water high efficiency pressure washer for intensive use. Top efficiency for heavy duty industrial cleaning. Equipped with 2 high efficiency boilers with a refractory cement base and stainless-steel boiler head and cylinder. This type of unit is well used in situations where a high hot water flow is needed for a high degreasing power. Particularly suitable for washing large tanks and containers and other applications where a large hot water volume is required.**
