23K COMMERCIAL EVAPORATIVE COOLER

BARGROUP.COM.AU

130 L · 10.5 HOUR RUN TIME · 23,000 M³/HR COOL AIR FLOW · 150 M² COOLING AREA

PIN CEC230

Our BE commercial evaporative air cooler uses the natural process of evaporation to cool the air. Evaporative cooling is a cost-effective way to keep you cool in the summer.

The CEC230 is ideal for open areas and is suitable for spot cooling and capable of cooling areas of up to 150 m².

These units are perfect for cooling warehouses, workshops, offices & hospitality venues.

Keep your warehouse, work bench, or office cool this summer!

SPECIFICATIONS

- **Cool Air Flow:** 23000 m³/hr
- **Tank Size:** 130 L
- **Cooling Area:** 150 m²
- **Voltage:** 750 W, 50 Hz, 220-240 V 10 A
- **Water Consumption:** 10-15 L/hr
- **Approximate Run Time:** 10.5 hrs
- **Amp Draw:** 4.5 A
- **Noise Level:** 70 dBA

Part #	Cool Air Flow	Tank Size	Cooling Area	Voltage	Water Consumption	Run Time	Amp Draw	Noise Level
PIN CEC60	6000 m³/hr	45 L	45 m²	150 W, 50 Hz, 220-240 V 10 A	4-5 L/hr	10 hrs	1.45 A	45 dBA
PIN CEC90	9000 m³/hr	70 L	65 m²	250 W, 50 Hz, 220-240 V 10 A	5-6 L/hr	12.5 hrs	1.5 A	54 dBA
PIN CEC230	23000 m³/hr	130 L	150 m²	750 W, 50 Hz, 220-240 V 10 A	10-15 L/hr	10.5 hrs	4.5 A	70 dBA
