31	XCRNAS	Close Range Nozzle Assembly (Items 6-8)
32	XHA	Hose Assembly (Items 10-14)

INSTALLATION

Read the instructions & warnings included with your X-Jet in its entirety before installation. Determine the X-Jet model you need based on the operating pressure and GPM of your machine. Connect the X-Jet to the gun or lance via a 1/4" quick connect coupler (not included). Make sure it is properly connected before turning the pressure on. Always aim the nozzle away from all surfaces and people when first turning the pressure on to ensure the X-Jet is securely connected. Never aim the nozzle towards any person or animal in any circumstance. Always use the proper personal protective equipment when using the X-Jet Nozzle. Under no circumstances should the pressure of the pressure washer in use exceed the maximum rated pressure of
